You should start saving money now
Saving money is fun and is the smart thing to do!

Try earning money.

You can help with chores, start your own business or sell old toys that you no longer use.

**Saving is extremely important as it gives you choices.
You can choose to spend, save or share!**

Every month, when you earn money, place your money in three jars:

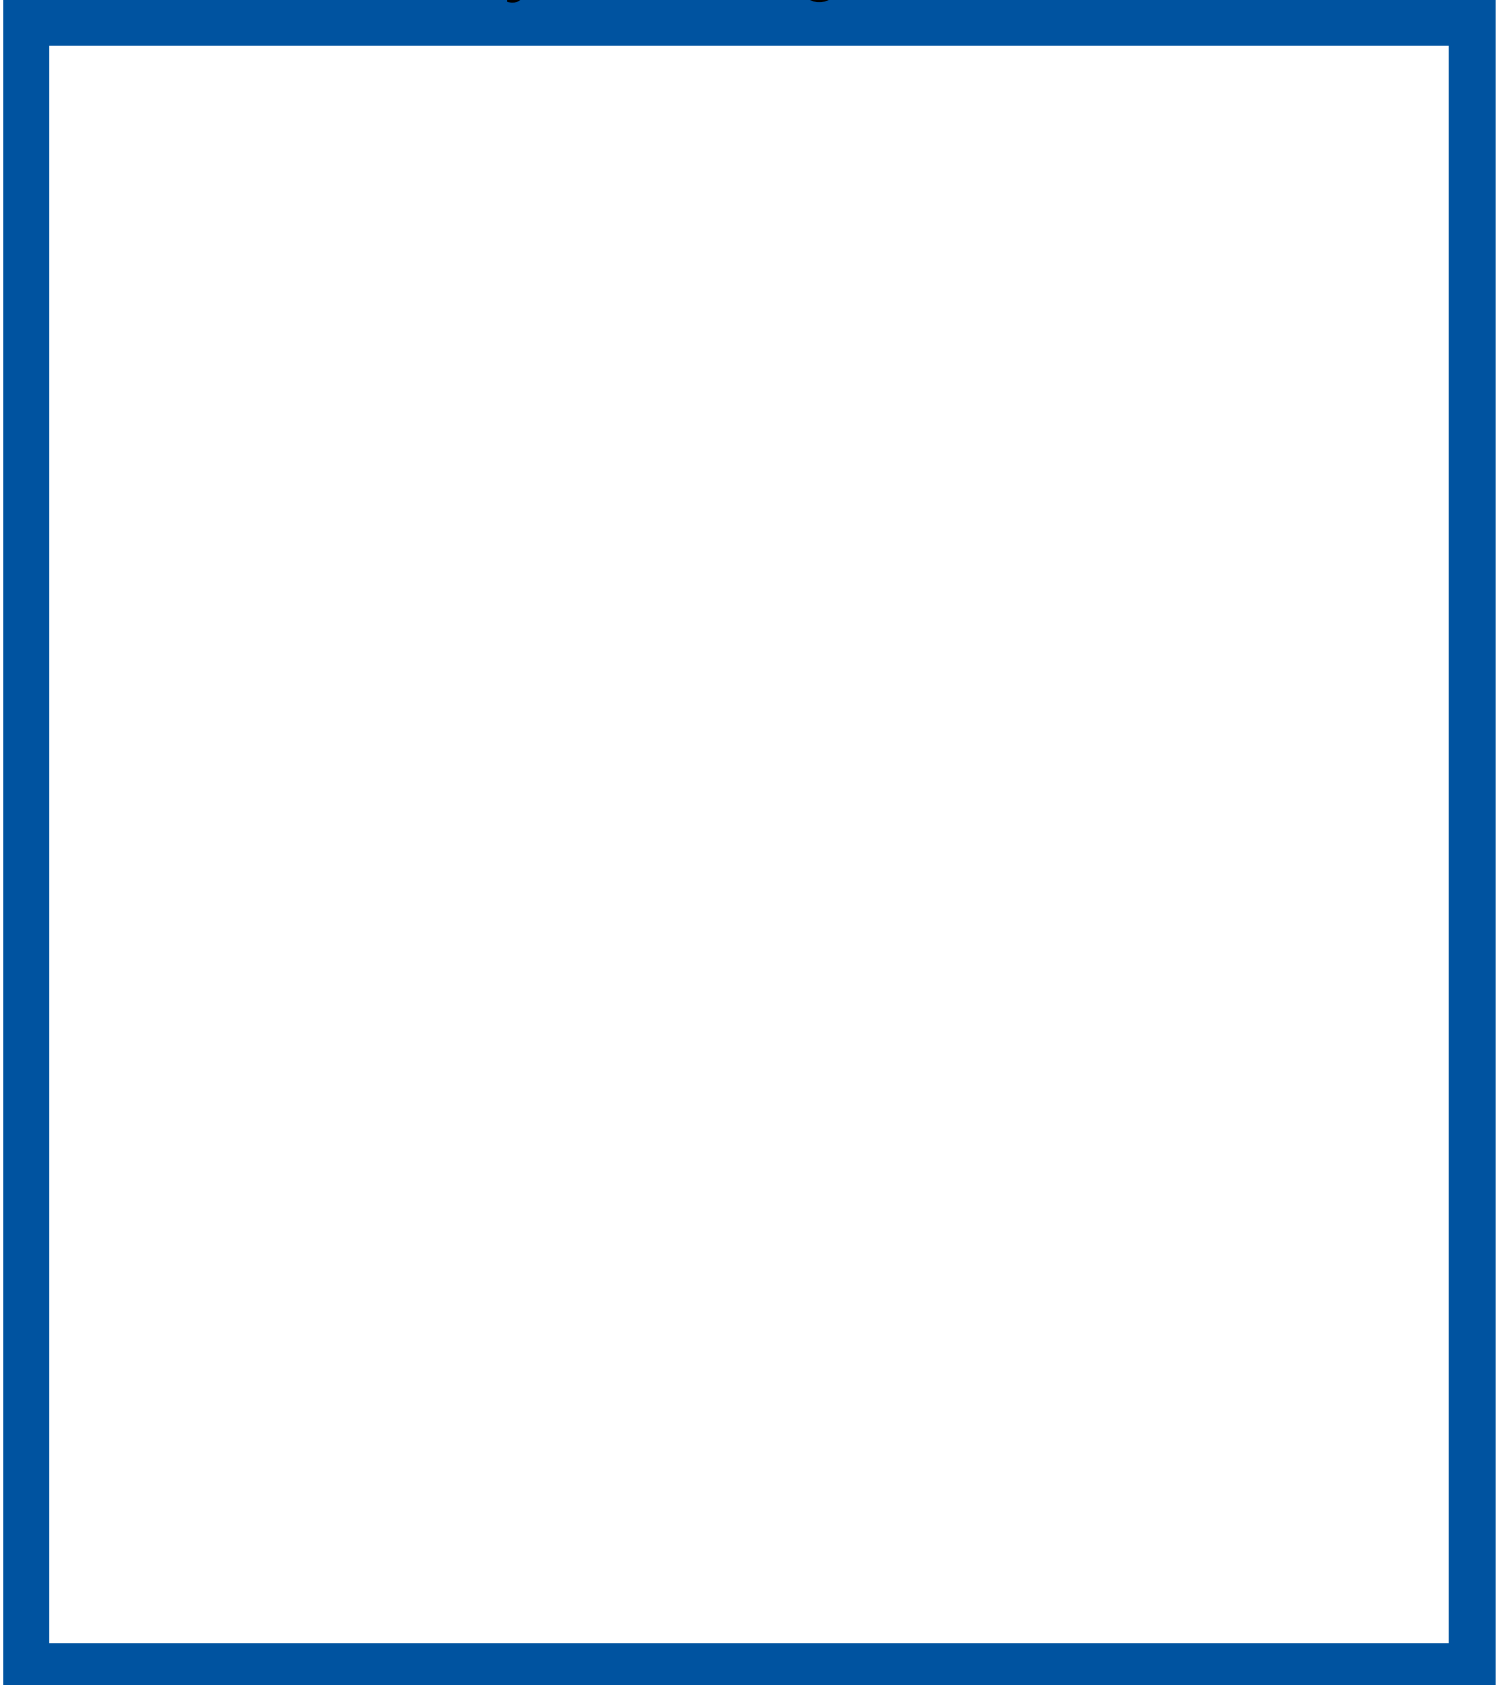

- **Spending,**
- **Saving and**
- **Sharing.**

At the end of the month, ask your mommy or daddy to take you to the Credit Union to save your mid and long term savings.

Saving Goal - Spend

Spending is when you take our money that you have earned to buy something that you want or a treat such as yummy ice cream, a new book or a toy!

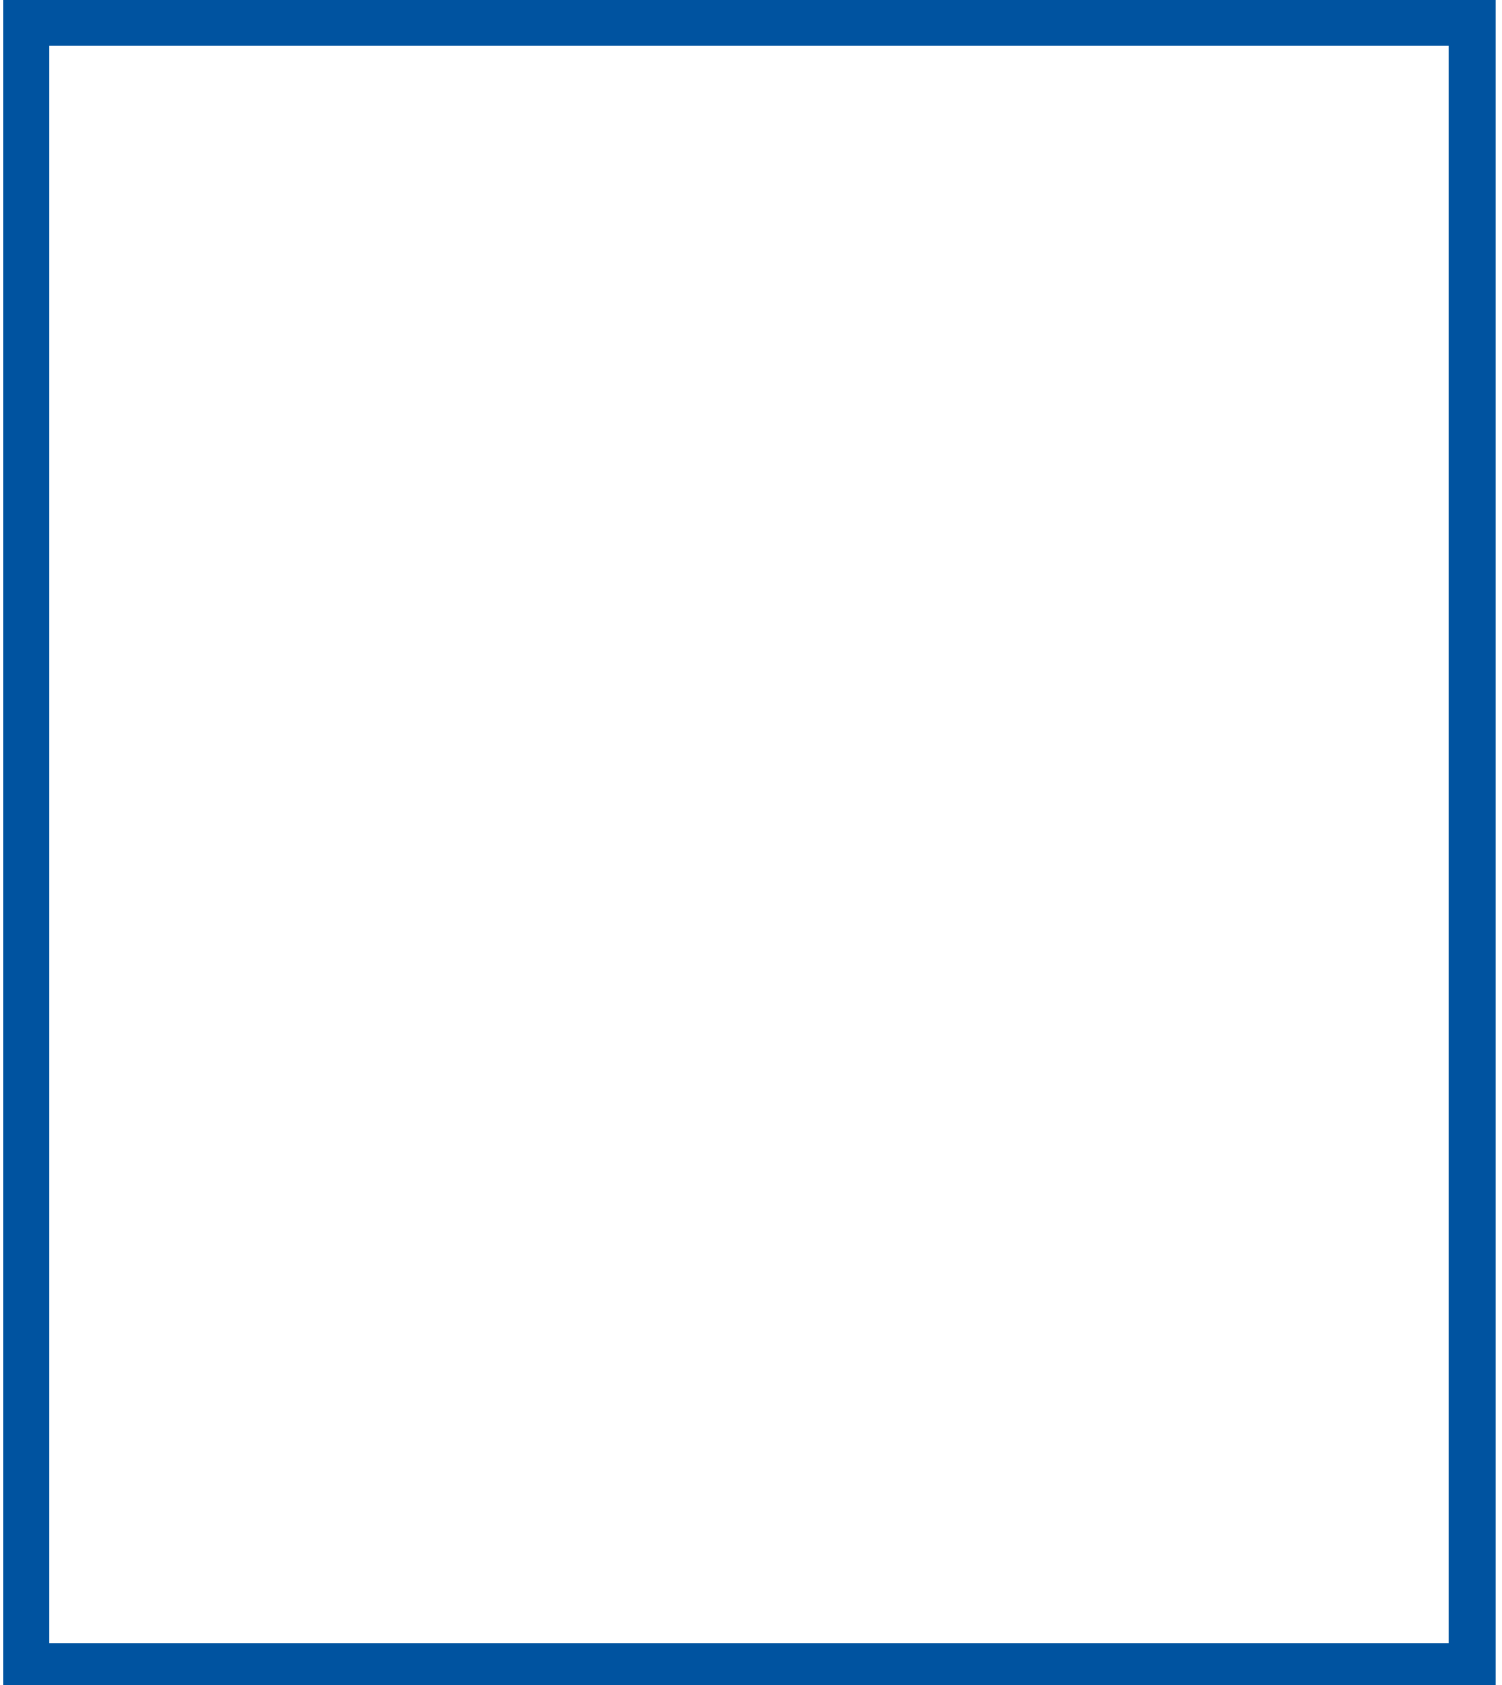

Let's draw a photo of something you want to spend your earnings on?

Saving Goal - Save

it is important to always place a small amount of money aside for savings; at least half of your earnings should go into your savings account at the Credit Union.

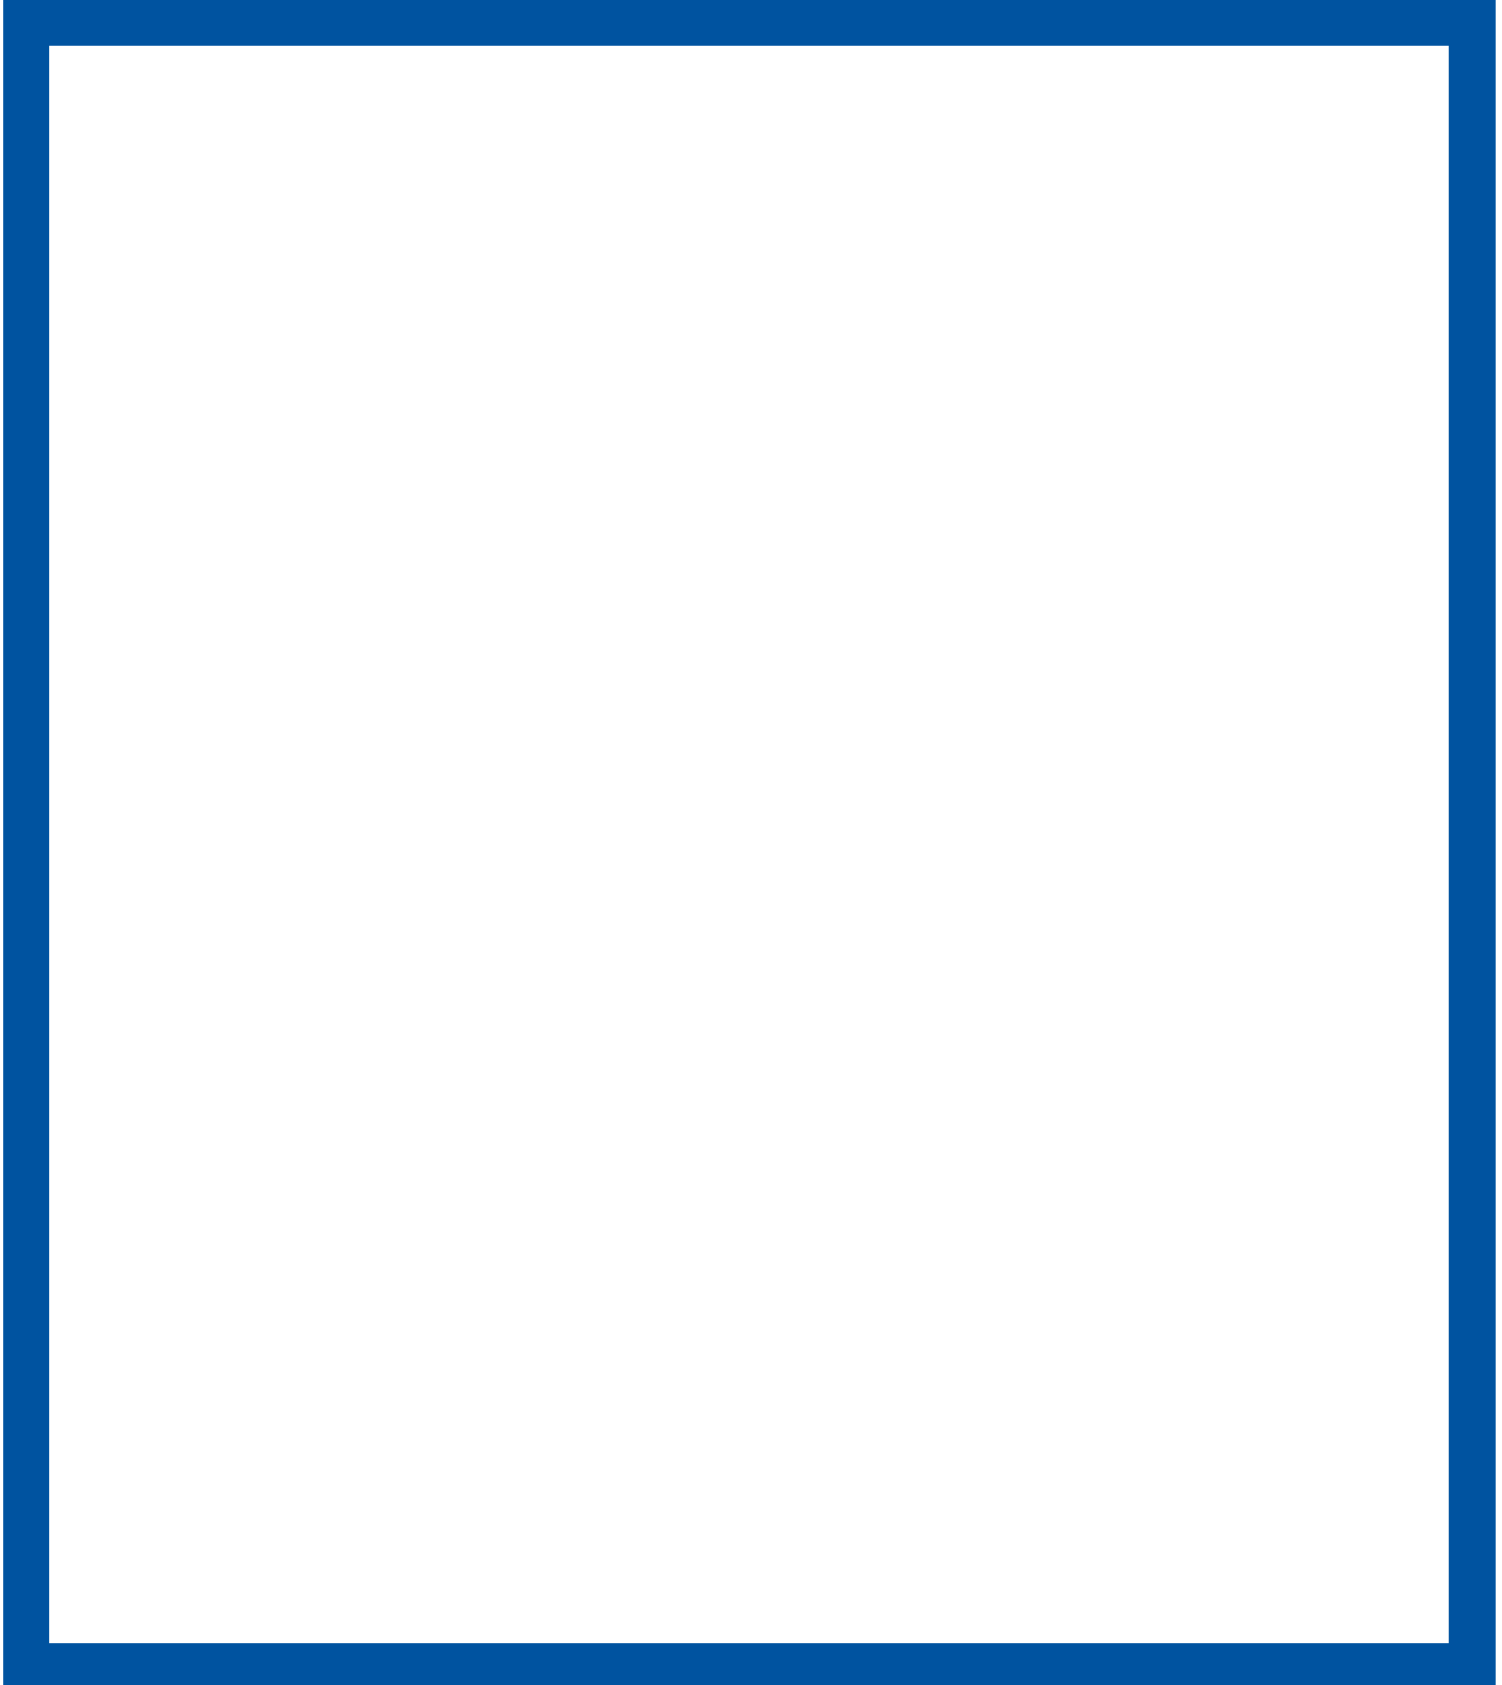

Let's draw a photo of something you want to save for!

Saving Goal - Share

It is important that you share some of your money with charities that help those in need. By sharing, you can make someone happy, healthy and smile again.

Let's draw a photo of a charity that you would like to share with.

Monster Money

Grandma monster gave everyone their allowance. Can you figure out which monster got the most money? Write each monster's total in the blank space.
